

Liquid Mixer 0-10%

The KABI Liquid Mixer ensures accurate and uniform blending when concentrated metal cutting fluids and coolants must be mixed with water.

- Powered only by the pressure from the water supply.
- Adjustment of mixing ratio is variable and can also be done during processing.
- The CNC machined compact construction with aluminium body and a stainless steel rotary disc valve ensures accurate performance over time.
- Supplied with a 2" BSP (F) brass ball valve and 2 ball check valves to prevent backflow.
- Press-fit plastic suction tube can be cut to fit drum height.
- Supplied with 2" BSP (M) Bung adapter.

- Maintenance free 
- Easy to install and easy to operate
- Cost-effective device

KA1000-10 LIQUID MIXER

ARTICLE NO.	KA1000-10
FLOW RATE	1000 liter per hour
MIXING RANGE	0-10 %
ON/OFF VALVE	Yes
SUCTION TUBE	ø16 mm
WEIGHT	1.44 kg
BOX SIZE	94 x 15 x 7.5 cm
